Dear Pat:

We have run into a significant problem relative to the disposal of waste material on the Eagle Marine properties in Sauget, Illinois. After going over the plats with you we had tentatively decided that the disposal could take place west of a line drawn between the UE utility easements on said property. We have come to find out that Eagle Marine does not own the property west of those utility easements, so we cannot do any clean-up work and dispose of it on that property. I would appreciate hearing from you concerning another site on the properties if at all possible.

Best regards,

Frank L. Pellegrini
